

Ozone pollution is a concern in the warmer months of April through September. A small commitment at least one day a week helps reduce ground-level ozone pollution and helps us all breathe easier.

BIKE

Ride your bicycle to places you would normally drive your car. Get some fresh air and save some gas while reducing air pollution.

RIDE PUBLIC TRANSIT

Utilize alternate modes of transportation. Consider taking the light rail, bus or vanpool.

CARPOOL

Carpool to as many locations as possible. Riding together decreases the amount of emissions in the air.

WALK

Reducing air pollution can be as easy as walking to nearby locations instead of driving. Increase the number of steps on your pedometer and improve your health.

AVOID IDLING

Avoid the drive-thru and go inside to order your food, coffee or prescriptions. You won't have to wait in a long drive-thru line and you will reduce exhaust emissions.

FUEL AFTER DARK

Hot temperatures and gasoline fumes create ground-level ozone. Reduce the effect and refuel your vehicle at night time.

SWEEP IT UP

Sweep your driveway, patio, deck, etc. instead of using a leaf blower. Get some exercise and breathe in fresh air while you burn a few calories.
